Submission guideline, version 2.0

Section 1. Purpose. This guideline sets out what a complete submission contains.

Section 2. Required documents

Every submission must include a cover letter, an application form, a valid certificate, a test report and an invoice.

Section 3. Supporting evidence

Supporting evidence consists of one test report covering the submitted batch and a signed declaration from the head of laboratory.

Section 4. Consistency. The applicant name, submission reference and product batch must be identical in every document.

Section 5. Validity

A certificate must be valid on the submission date.

Section 6. Retention

Records are kept for 5 years.
